

As shared previously, all HOA facilities are closed effective March 15 until March 31. As the end of this period nears, we will assess developments and determine if longer closure is necessary for our facilities.

Please note that ALL food and beverage outlets are closed Sunday, March 15.

We don't want you to go hungry or thirsty during this time! Beginning Monday, March 16, our kitchens will be open limited hours providing takeout meals from new, special menus. Service windows will be open for beverages and to-go orders.

You will be able to order and pick up takeout meals during these hours, seven days a week:

- Eagle's Nest Restaurant: 8 a.m. – 3 p.m., daily. On Fridays, open until 7 p.m. for Fish Fry takeout.
- Toscana's Restaurant: 11 a.m. – 6 p.m., daily.

Additionally, Ed's Dogs will remain open with normal hours.

- Ed's Dogs Snack Bar: 9 a.m. – 3 p.m.

Takeout Food

Takeout orders should be called in to Eagle's Nest Restaurant at 623-935-6785 or Toscana's at 623-935-6753. Orders will be delivered curbside at the front main entry areas of both locations.

The service bar windows (located on the back patios of each location) will be open for walk-up service ONLY. If you choose to enjoy the food and/or beverages on the patios, please exercise social distancing by not moving patio furniture together. Please note that there is NO SERVICE of any kind on the patios. Alcoholic beverages must be consumed on the premises due to the requirements of our beverage permit. However, unopened packaged beer and wine purchased from the windows can be consumed on the patios, golf courses or taken home.

Banquets and Catering

All banquet/catering events have been canceled until further notice. Banquet and Catering staff will answer phone calls and emails as possible.

What you can do to protect yourself and others

The CDC recommends a number of steps you can take to help prevent the spread of respiratory diseases, which you can find [here](#). They include:

- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.
- Avoid touching your eyes, nose, and mouth.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently-touched objects and surfaces using a regular household cleaning spray or wipe.
