

# **All spots now full for the age 75+; 65+ current vaccine opportunity**

Tuesday, February 2, 2021

---

As of 1:45 p.m. today, Feb. 2, 2021, all of the available COVID-19 vaccination appointments for PebbleCreek residents are now taken. The phone lines used to make appointments will no longer be answered. Please understand that Safeway tried their best. We accepted their kind offer to assist our most vulnerable neighbors because we believed it was better to help some of our community rather turning them down because not all could get vaccinated. We know that many residents want the vaccine here in the community and we continue working hard to try to bring it here. At this time we have no additional information about further opportunities, but will inform the community should they arise.

Thank you,

Traci
