

## **COVID -19 Update; August 6-9, 2021**

Friday, August 6, 2021

---

As news accounts about spikes in reported cases of COVID-19 and the related Delta variant are on the rise, the health and safety of our residents, staff, and community remains our focus. We will continue to closely monitor developments and guidance from Maricopa County Health Services Department, CDC and other government agencies.

Currently face masks are optional for staff, homeowners, and visitors. If you see an HOA staffer in a mask, it is their choice to wear it. COVID-19 vaccinations are not currently required for staff.

HOA staff has been and will continue to maintain strict protocols for cleaning and sanitization throughout all HOA facilities. County, State and federal health agencies strongly recommend vaccinations and the wearing of face coverings to help reduce the transmission of COVID-19 and/or variants of COVID-19.

No changes to current protocols are being recommended at this time. Should additional guidance or protocols be issued, we will notify the community.

For the latest from the CDC, visit [www.cdc.gov](http://www.cdc.gov)
