

## **Ed's Dogs and Toscana's restaurant to close until further notice as of April 5, 2020**

Friday, April 3, 2020

---

As we begin to look at additional weeks of shutdown with no clear indication of when we may be able to reopen facilities, we have taken a look at operations and made the following decisions:

Effective at the close of business, Saturday, April 4, 2020;

- Ed's Dogs will close until further notice. We have seen a reduction in business, and it is nearly impossible to observe social distancing for both staff and patrons in the small area in front of Ed's.
- Toscana's Restaurant will close until further notice. We are not experiencing sufficient business from homeowners to warrant staying open and we have the opportunity to have all Takeout operations in one facility, still within PebbleCreek.

As a result, Eagle's Nest restaurant will have expanded hours from 8 a.m. – 6 p.m., daily, and until 7 p.m. on Fridays. Eagle's Nest can handle the total amount of orders that we have seen property-wide over the past two weeks. The Groceries to Go program will also continue and remain servicing orders from the Clubhouse at Tuscany Falls. We understand that people living on the Tuscany Falls side of PebbleCreek Pkwy will have to cross the road to get takeout orders, and likewise, those on the Eagle's Nest side will have to drive over for Grocery Pickup. We ask that you keep in mind, especially in light of these unprecedented circumstances, that both of these services are within our community and these kinds of offerings are truly a benefit in these uncertain times.

As we continue to remind everyone, it is very important to take personal responsibility for your health and well-being. Please follow CDC Guidelines, especially regarding social distancing.

The CDC recommends a number of steps you can take to help prevent the spread of respiratory diseases, including:

- Practice social distancing; deliberately increasing the physical space between people to avoid spreading illness. Staying at least six feet away from other people lessens your chances of catching COVID-19.
- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Follow CDC's recommendations for using a facemask.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.
