

HOA Staff required to wear masks

Sunday, May 23, 2021

Last week the HOA announced that mask use and social distancing went from required to optional for homeowners. At that time, we also stated that all HOA staff were required to wear masks when serving customers, to ensure that we continue to protect our customers and fellow staff. That mask mandate for staff remains in place at this time. At some point in the future, mask usage will become optional for staff, and at that time some staff, like some homeowners, may still wish to wear a mask.
